

Launch the U.S.-Italian Intern Alumni Association

Project Title	Launch the U.S.-Italian Intern Alumni Association
Project Summary	Develop a strategy and web-based platform to connect American and Italian alumni of student internship programs at the U.S. Embassy in Rome and design content to foster exchange and interest among the nascent community.
Country	Italy

Project Description

A large number of American and Italian students serve every year as interns in Italy. As a group, they share a commitment to public service and a passion for foreign affairs. However, the U.S. Embassy in Rome lacks a platform where this community can stay in touch after their assignments as they continue their studies or launch their careers. We are seeking a tech-savvy applicant to develop a platform and launch a virtual network of former U.S. and Italian student interns. The successful candidate will also have creative ideas for engaging with the new alumni association.

Required Skills or Interests

Skill(s)

Design thinking

Social media management

Website design

Additional Information

You will be mentored by a U.S. Foreign Service Officer before and during your internship who will help guide you through the design and implementation process.
